Treatment Plant Solutions

For Generations

Proud to be a part of the McWane family of companies.

McWanePI.com

A streamlined solution for your treatment plant needs.

MPI brings the best of our world to you.

Combining the immersive expertise from eight key water infrastructure brands in the McWane family of companies, McWane Plant & Industrial (MPI) provides a singular access point for the essential products and service required for any water or wastewater plant project.

We're a new kind of company formed in service of three simple goals: **to provide a primary source for best-in-class products from time-tested brands; to offer veteran specialists as resources for any plant project of any scale; and to increase the ease and efficiency of the planning and completion of our clients' projects.**

Our dedicated team is comprised of dozens of treatment plant specialists with decades of experience designing and building complex water treatment and delivery solutions. We work cooperatively with industry partners to give each project the attention it deserves, providing unprecedented levels of communication, access and collaboration.

The MPI Solution

MPI engages with municipalities, consulting engineers and utilities through a dedicated, cross-functional sales force unmatched in the industry. MPI offers immediate value for complex projects involving the design and construction of water and wastewater treatment plants by increasing efficiencies in four areas impacting your success.

Plant-ready products

We offer a comprehensive selection of components from the catalogs of industry-leading companies. No matter the size or configuration, the best option for you is always available.

Streamlined specifications

We make it easy to select, size and specify treatment plant components and systems with comprehensive digital design resources and access to experienced experts.

Accurate project timelines

MPI ensures that your orders are delivered to the worksite when and how you expect them. By smoothing site workflows and eliminating problems with your components, MPI keeps your project moving on or ahead of schedule.

Risk management and reduction

Whether your project is design-build, construction management at-risk (CMAR), or general contractor, our deep support capabilities, proven brands and reliable processes offer the path of least resistance. With fewer hurdles to overcome, projects run smoother and get done faster.

Valves • Gates Pipe & Fittings

Valves

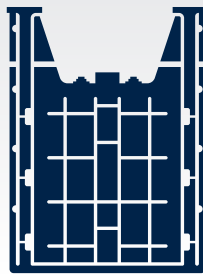

Solutions:

- Rotating Disc Gate Valves (AWWA C500)
- Eccentric Plug Valves (AWWA C517)
- Butterfly Valves (AWWA C504)
- High Performance Butterfly Valves (API 609)
- Check Valves (AWWA C508)
- Resilient Wedge Gate Valves (AWWA C509/C515)
- Pressure Relief Valves (Floor & Wall)
- Mud Valves
- Shear Gate Valves

Brands:

CLOW
VALVE CO.

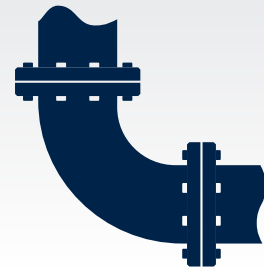

Gates

Solutions:

- Fabricated Stainless Steel Gates
- Fabricated Aluminum Gates
- Stop Logs & Stop Gates
- Cast Iron Sluice Gates
- Rectangular Butterfly Gates
- Automatic Level Control Gates
- Flap Gates / Flap Valves

Brands:

Pipe & Fittings

Solutions:

- Fabricated Flange and Wall Pipe
- Ductile Iron Fittings
- Grooved Pipe & Fittings
- Pipe Linings: cement, glass, Protecto 401™
- Welded Outlets, Thread-O-Lets, Welded Boss
- Restrained Joint Fittings
- Seismic Solutions

Partnering With You

Project Support

Our support teams work within dedicated service regions. This allows our experts to apply regionally specific knowledge, including state regulations, codes and environmental specifications. Our nationally certified Associate Design-Build Professionals® are a valuable asset to Design-Build projects.

Making It Happen

Our extended manufacturing capabilities mean your precise specifications are closer in reach and delivered faster, with less legwork from you. We offer products that conform to AWWA and NSF certifications and can work with your team to customize sizes, lengths and coatings or to fulfill unique requests. As part of our commitment to

American workers and industries, we're proud of our ability to source any of your components from domestic facilities and materials to meet Buy American Standards.

One Smart Source, Ready To Work for You

McWane Plant and Industrial offers one point of access to the nation's most comprehensive solution of high-quality water infrastructure components and expertise. With more options, more efficiency and more focus, MPI is improving the way water and wastewater treatment plants get built.
